

CANAM NET Weekly Newsletter

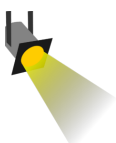

Issue 2 - 4/06/2025

The net is on daily 7.153Mhz and starts between 9:00 and 9:15 am EST * The TC Net ends and hands the frequency over to us . Send all inquiries to the Net Manager: Dick K2KA at K2KA@canamnet7153.com

Checkout our website <http://canamnet7153.com>

[I am using MS Publisher this week, let me know if you like it](#)

CANAM Net Member Spotlight This week is Bill
N4SV. Check out his member page at <http://canamnet7153.com/n4sv/>

On a daily basis I track how long our net takes. My main concern is the NCS and Loggers having to sit more than 90 minutes. Imagine stuck in a chair for over that? I have noticed that the net is averaging 10 minutes longer this month (as of today March 23) and last month. Remember the net starts by 915am and please try to check in early. Think of the NCS and Logger's wellbeing when you check in late!! Please check in as early as you can!! Thanks.

I really enjoy getting your replies to my email. Please let me know what's going on in your world. If appropriate comments it will be posted to website. <http://canamnet7153.com/members-comments/> At least send me a quick "HI I got your email" or "dit dah dit" like one member! LOL. I hope you can share what is going on in your world which will be shared to all members via the website. This is our net and our website. Thanks for taking the time to read this email newsletter and to respond.

Here's what's going on in K2KA's world: Yet another cold and rainy morning 40F. It rained yesterday. At least no frozen precip. Well I finally got Windows 11 on my hamshack PC. It was a long process, and mainly trying to protect all my apps and connections. Setting up a PC in this shack is a multi day affair. Windows 11 is needed this OCT because MS will not support Windows 10. Needed to fool around with the Mother board BIOS....EEK! I had to convert the Boot

format of the drive from Legacy to UEFI. Needed GPT format before that. I have two drives both 1TB SSD and I first cloned the windows 10 drive so I had a working backup should Windows 11 fail. Well everything works great now. Phew!! But there was a lot of nail biting. For more info about me, check out my website and you can see my station, pics and other info at <http://qrzk2ka.com>

CW is my favorite mode

RST vs RSQ?

I'm not sure how many do RTTY, but I do and really enjoy it. Did you know, and I did not, that there is a separate rating system for the signal report for RTTY it's called RSQ. See this website: <https://rsq-info.net/rsq-table/>

The April 6th, 2025 1TCI (1st time check ins) and CRL (Callsign Cross Reference List) have been updated and attached in pdf and xlsx to the email. Thanks to Doug VE3DVC both lists have been shortened and improved. The CRL is up on the website.
